

What to Bring to Class?

Below you will find a list of “*Required Equipment*” specific for each class. We have created these requirements for your safety and for the safety of others. Our instructors have endeavored to keep the operational costs low for the individual, while maintaining a higher standard of safety than many other firearms training programs. Failure to bring the required equipment may result in your early dismissal from class.

You will also see a list titled “*Optional Accessories*” that includes items to enhance your training experience and comfort, but are not required. In the final column on the right titled “*Recommendations*,” we have included a product list of items we at Liberty Craft personally use and find to be the most useful for our training applications. Personal preference and budget will dictate how each individual sets up their kit. There are many other great products on the market today we have not tried, and therefore are not included on this list. If you have any further questions, please feel free to call us at 352-399-8196.
